## **1.0 INTRODUCTION**

City Council, at its meeting of February 29 and March 1 and 2, 2000, adopted a Road Classification System to consolidate and replace the various road classification systems inherited from Toronto's seven former municipalities. Transportation Services Division, in consultation with internal staff, Councillors and the public developed the City of Toronto Road Classification System (RCS).

This document contains a listing of all City-owned streets and their respective road classification. Included, are the most recent updates adopted by City Council on April 24, 25, 26 and 27, 2018. The listing contains streets that are classified as expressway, major arterial, minor arterial or collector. Local streets, streets owned privately or by other levels of government, expressways and road ramps, public and private laneways and roads pending classification are not included.

The streets are sorted alphabetically on a City-wide bases. For a complete list of abbreviations for street 'type' and 'direction', see Section 2 of the document.
